

## EHRP Alert #10 Social Security Numbers Starting with 765

### Social Security Numbers Starting with 765

**Effective immediately, EHRP will now allow employee records to be added to the system with National Ids / Social Security Numbers (SSNs) beginning with '765.'** The EHRP system has specific restrictions for formatting National Ids. These restrictions will not allow National Ids to begin with certain sets of numbers. Until now, '765' was included in those numbers not allowed. Since it was recently discovered that SSNs beginning with '765' are in fact valid, the system has been modified to allow these numbers.
